## Don't believe everything you hear in this world. It's far better only to believe

what you see. If you see the same thing  
happening day after day and week after  
week, and if it always happens the same—  
then believe it. It's pretty sure to be true.

Day after day Fels-Naptha Soap will  
do your cleaning for you. It will do it  
better than it has ever been done before,  
in half the time, with quarter the effort.

Week after week it will make wash-  
ing a pleasure instead of a nightmare.  
It will dissolve the dirt, leaving only the  
smallest and easiest part of the work for  
you to do. It works for you in cool or  
lukewarm water. It does away with hard  
rubbing and boiling.

#### A Grateful Woman Thanks Anty Drudge

Mrs. Progressive—"Anty Drudge, I have you to  
thank for starting me to be an up-to-date  
woman. I was a slave to the washtub and  
my house until I learned from you that all  
women can do their work well and keep house  
right and still have time for outside interests  
if they will use Fels-Naptha Soap. I am never  
without it, and it has made me a different  
woman and John a happier man."

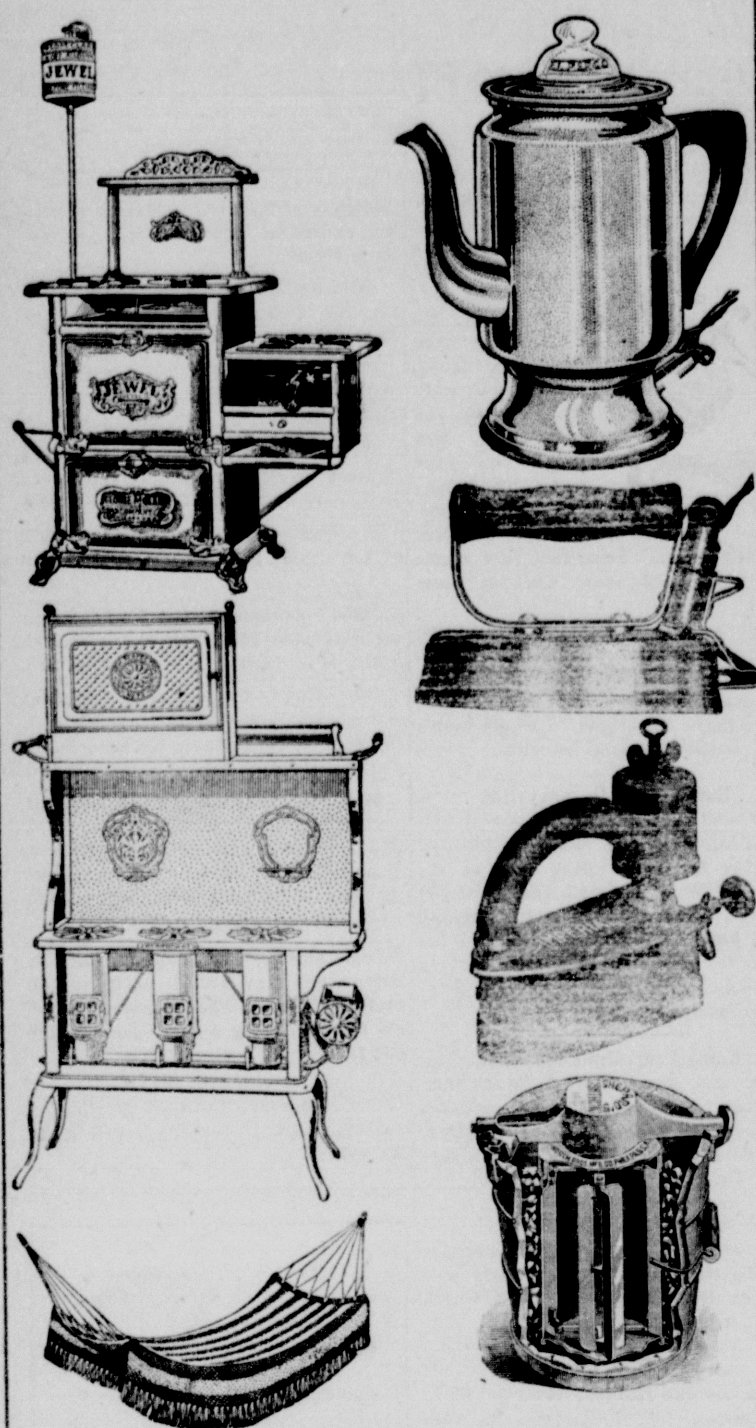

Anty Drudge—"Many a man has thanked me for  
telling his wife about Fels-Naptha Soap, and  
the women say they wouldn't believe it was  
possible that their work could be made so  
much easier."

### An Original Maryville Woman.

This is no ordinary story? No woman ever did just a common ordinary thing.

Originality of ideas is just a habit with women, but occasionally one springs an idea that makes every one of us sit up and gasp.

Slang is just a little "de trop" in a society department, but there is no other way to express it, and you will simply have to "hand it" to a Maryville woman for her original ideas of economy.

A certain little lady, who entertains a great deal, ordered a set of salad plates the other day, hand painted. Nothing original in that, but just wait for the finish of the story. She ordered lettuce leaves painted on them so she would never have to buy fresh leaves on which to serve the salads.

For Three Days, Commencing in the Morning, We Feature Radical Price Reductions on Our Newest

## Summer Dresses And Blouses

For the Fourth—

And for all Summer—

These fine new Dresses and Blouses will be in demand.

We have reduced prices now so that you will have all summer long to wear them.

Two points about this sale which deserves special prominence are:

1. All garments are new and express the latest styles. Many have arrived only this week.
2. Price for price, they offer greater values than this, or any other store, has heretofore been able to offer. Assortments are large, giving a wide variety to choose from.

Special prices are for three days only—Wednesday, Thursday and Friday. Although assortments are large, the values are so extraordinary that we cannot guarantee that they will last throughout the entire sale. Early shopping will be advisable.

## Unusual Values In New Summer Dresses

The combining of our regular stock of Dresses with those received within the last few days gives you an opportunity for obtaining unequalled values in this sale.

Frequent shipments from the style centers keep our Dress Section in constant touch with all the new style developments. For instance, just within the last few weeks the demand for the Russian tunic has grown very rapidly, yet in this sale you will find a majority of the garments in the conservative or extreme tunic styles. However other styles, which are in vogue, are shown for those who prefer them.

Materials are the finest Crepes, Linens, Ratines, Voiles, Rice Cloths and Percales.

To show the savings offered, we give both the regular and the reduced prices:

## Attractive Models of New Summer Blouses at \$1

Just received from New York as fast as express could carry them, these new Blouses exhibit the most recent style tendencies.

One Blouse is made of White Voile with small designs embroidered in silk on the collars, front and cuffs. It has a silk tie cord around the neck, with three large beads matching the design in color.

Another Blouse is made of fine India Linon with frilled neck and sleeves. It has a vestee closed with small crochet buttons. The front is made of embroidery with hand worked designs, and insertion.

E. L. FERRITOR, Agent

J. J. McDermott  
National Open Champion 1911 to 1913  
"Pipe smoking gives added pleasure to a golfer when the pipe is filled with Tuxedo. Tuxedo provides more keen enjoyment than any other tobacco I know."

ALEX CAMPBELL  
Country Club, Brookline, Mass.  
"I am always glad to speak a good word for Tuxedo tobacco. Constant use of it only serves to make it better liked. Its fragrant, soothing flavor makes it the choice of many golfers."

ALEX ROSS  
National Open Champion 1907, says:  
"Tuxedo, cool and mild, is essentially the smoke that satisfies. Many of my fellow golfers agree with me in giving preference to Tuxedo."

## Tee Up! Smoke Up!

As satisfying as the sounding smack of the perfect drive, is the open-air relish of the perfect smoke—Tuxedo. Both go together, too. When you grab your bag and start for the links, grab up your tin of Tuxedo and take it along.

"Follow through" the snappy afternoon with Tuxedo. Put Tuxedo in your pipe and you will "put" the best. And at "the nineteenth hole" rest up and relax with a good, solid smoke of Tuxedo. That's the advice of good golfers everywhere.

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

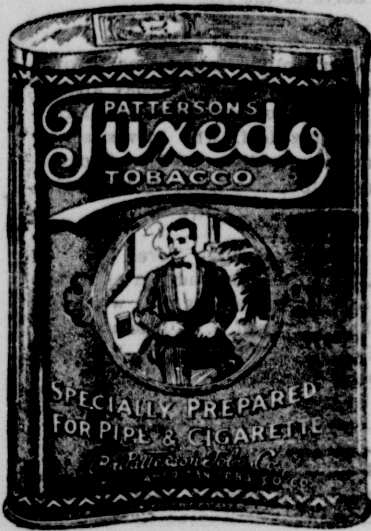

It's worth your while to try Tuxedo. Especially if a sensitive tongue prevents pipe smoking.

Tuxedo positively cannot bite—not even if you smoke pipeful after pipeful, as many as you can crowd into a day or a week.

Tuxedo is made of only the finest, choicest, selected leaves of perfectly aged Burley tobacco. It is made by the original "Tuxedo Process" which removes every trace of bite and sting and develops all the wonderful mildness, fragrance and flavor of the Burley Leaf in a way that no other brand of tobacco has ever successfully imitated.

## CRIME DUE TO SERVIAN PLOT

Assassinations Result of Carefully Planned Conspiracy.

### REVENGE FOR AUSTRIAN ACTS.

Annexation of Bosnia and Herzegovina, Defeating Dreams of Greater Country, Inspired the Crime, According to News Reaching London.

London, June 30.—According to news reaching here the assassination of Archduke Francis Ferdinand, heir to the Austrian throne, and his wife was the result of a carefully prepared Servian Nationalist plot in revenge for the annexation of Bosnia and Herzegovina, which defeated the dreams and aspirations of creating a greater Servia.

The assassins of the Archduke Francis Ferdinand and his wife have confessed that the plot was matured at Belgrade. The terrible event is only another illustration of how well justified is the anxiety always present in the minds of European politicians and diplomats about the unstable conditions prevailing in the Balkans and even in the dual monarchy itself.

This anxiety is considered likely to increase during the short period before the aged emperor, who alone is believed able to hold together the heterogeneous components of the Austro-Hungarian empire, finally disappears from the scene. He has been displaying his customary strong character in the face of his latest bereavement, and seems in excellent health.

Anti-Servian riots are already occurring in various parts of Austria-Hungary, as well as at Sarajevo.

#### Special Train Conveys Bodies.

Vienna, June 30.—The bodies of Archduke Francis Ferdinand and his wife, the duchess of Hohenberg, were conveyed from Sarajevo by special train to Metkovich, Dalmatia. From there they will be transferred to a warship, which will proceed to Trieste, under the escort of a squadron, arriving there Thursday morning. A special train will carry the bodies to Vienna, arriving at 10 o'clock at night. From 10 o'clock until noon they will lie in state in the chapel of the Hofburg and the public will have an opportunity during these hours to pass through the chapel. The interment will be made at midnight Friday at Artstetten. The emperor will not attend the services, but will be represented by Archduke Charles Francis Joseph.

### T. R. ON WAY TO PITTSBURGH

His Address Will Be Closing Feature of Progressive Conference.

Pittsburgh, June 30.—Colonel Roosevelt's visit to Pittsburgh today will mark the second annual conference of the Progressive League of Pennsylvania and his speech tonight is the closing feature of the conference.

Business sessions, conferences and luncheons take up the hours of the day while Colonel Roosevelt is making his trip from New York and at the hour of his arrival, 6:55 p. m., the annual dinner of the league will be in progress.

Four thousand tickets, representing the capacity of Exposition hall, have been issued, and demands for more have prompted the arrangement of an overflow meeting in an adjoining hall, without seats, but providing standing room for about 10,000 persons.

Both meetings will be addressed by Gifford Pinchot, the Progressive nominee for United States senator; William Draper Lewis of Philadelphia, Progressive nominee for governor, and Colonel Roosevelt, although the latter's remarks at the overflow meeting will be very brief.

#### Negroes Will Replace Negroes In Office

Washington, June 30.—President Wilson has promised to fill all positions under the federal government now held by negroes with other negroes in case of changes. He told this to Representative Smith of Maryland, who called to urge the appointment of a white man as recorder of deeds for the District of Columbia. President Wilson told Mr. Smith that soon after his inauguration a delegation of negroes urged him to adopt that plan and he promised to do so.

#### Factions In Domingo Fully Warned.

Washington, June 30.—There will be no American intervention in San Domingo as long as lives and property of foreigners are not recklessly endangered by the contending factions. Missouri Has Good Coal Year.  
The production of coal in Missouri in 1913 was 4,318,125 short tons, valued at \$7,468,308, a decrease compared with 1912 of 20,731 tons in quantity and of \$165,556 in value. With the exception of 1912, however, the output in 1913 was the largest in the history of the state. The decreased production in 1913 was due primarily to the exceptionally mild weather in February and March, according to E. W. Parker, of the United States geological survey, the output in those two months being nearly 135,000 tons less than in the corresponding period in 1912. The deficiency was made up in part by an increased demand from the railroads. The coal mining industry suffered somewhat from the drought during the summer, and at times water for boiler use had to be hauled to the mines. Transportation facilities were ample and satisfactory, and there was little interruption to mining operations on account of labor troubles.

The number of fatal accidents in the coal mines of Missouri in 1913 was reduced to just one-half of the fatalities of the preceding year, or from 20 to 10, according to reports to the bureau of mines. The occurrence of coal in Missouri appears to have been known as early as 1806, when, according to "An account of expeditions to the sources of the Mississippi," etc., by Zebulon M. Pike, it was noted on the banks of the Ohio river. The coal attracted the attention of the early settlers and numerous small local mines are reported to have been opened by them. No record is extant of the quantity of coal produced in those early days in Missouri, and the first statement regarding the quantity mined in the state is contained in the report of the United States census for 1840, in which year a production of 9,972 tons is recorded.

### An Original Maryville Woman.

This is no ordinary story? No woman ever did just a common ordinary thing.

Originality of ideas is just a habit with women, but occasionally one springs an idea that makes every one of us sit up and gasp.

Slang is just a little "de trop" in a society department, but there is no other way to express it, and you will simply have to "hand it" to a Maryville woman for her original ideas of economy.

A certain little lady, who entertains a great deal, ordered a set of salad plates the other day, hand painted. Nothing original in that, but just wait for the finish of the story. She ordered lettuce leaves painted on them so she would never have to buy fresh leaves on which to serve the salads.

For Three Days, Commencing in the Morning, We Feature Radical Price Reductions on Our Newest

## Summer Dresses And Blouses

For the Fourth—

And for all Summer—

These fine new Dresses and Blouses will be in demand.

We have reduced prices now so that you will have all summer long to wear them.

Two points about this sale which deserves special prominence are:

1. All garments are new and express the latest styles. Many have arrived only this week.
2. Price for price, they offer greater values than this, or any other store, has heretofore been able to offer. Assortments are large, giving a wide variety to choose from.

Special prices are for three days only—Wednesday, Thursday and Friday. Although assortments are large, the values are so extraordinary that we cannot guarantee that they will last throughout the entire sale. Early shopping will be advisable.

## Unusual Values In New Summer Dresses

The combining of our regular stock of Dresses with those received within the last few days gives you an opportunity for obtaining unequalled values in this sale.

Frequent shipments from the style centers keep our Dress Section in constant touch with all the new style developments. For instance, just within the last few weeks the demand for the Russian tunic has grown a very rapidly, yet in this sale you will find a majority of the garments in the conservative or extreme tunic styles. However other styles, which are in vogue, are shown for those who prefer them.

National Open Champion 1911 to 1913  
"Pipe smoking gives added pleasure to a golfer when the pipe is filled with Tuxedo. Tuxedo provides more keen enjoyment than any other tobacco I know."

ALEX CAMPBELL  
Country Club, Brookline, Mass.  
"I am always glad to speak a good word for Tuxedo tobacco. Constant use of it only serves to make it better liked. Its fragrant, soothing flavor makes it the choice of many golfers."

ALEX ROSS  
National Open Champion 1907, says:  
"Tuxedo, cool and mild, is essentially the smoke that satisfies. Many of my fellow golfers agree with me in giving preference to Tuxedo."

## Tee Up! Smoke Up!

AS satisfying as the sounding smack of the perfect drive, is the open-air relish of the perfect smoke—Tuxedo. Both go together, too. When you grab your bag and start for the links, grab up your tin of Tuxedo and take it along.

"Follow through" the snappy afternoon with Tuxedo. Put Tuxedo in your pipe and you will "put" the best. And at "the nineteenth hole" rest up and relax with a good, solid smoke of Tuxedo. That's the advice of good golfers everywhere.

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

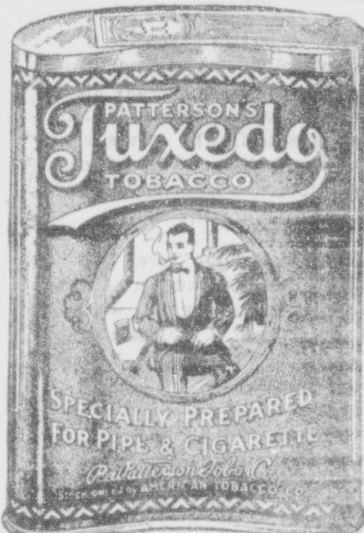

It's worth your while to try Tuxedo. Especially if a sensitive tongue prevents pipe smoking.

Tuxedo positively cannot bite—not even if you smoke pipeful after pipeful, as many as you can crowd into a day or a week.

Tuxedo is made of only the finest, choicest, selected leaves of perfectly aged Burley tobacco. It is made by the original "Tuxedo Process" which removes every trace of bite and sting and develops all the wonderful mildness, fragrance and flavor of the Burley Leaf in a way that no other brand of tobacco has ever successfully imitated.

### Missouri Has Good Coal Year.

The production of coal in Missouri in 1913 was 4,318,125 short tons, valued at \$7,468,308, a decrease compared with 1912 of 20,731 tons in quantity and of \$165,556 in value. With the exception of 1912, however, the output in 1913 was the largest in the history of the state. The decreased production in 1913 was due primarily to the exceptionally mild weather in February and March, according to E. W. Parker, of the United States geological survey, the output in those two months being nearly 135,000 tons less than in the corresponding period in 1912. The deficiency was made up in part by an increased demand from the railroads. The coal mining industry suffered somewhat from the drought during the summer, and at times water for boiler use had to be hauled to the mines. Transportation facilities were ample and satisfactory, and there was little interruption to mining operations on account of labor troubles.

The number of fatal accidents in the coal mines of Missouri in 1913 was reduced to just one-half of the fatalities

of the preceding year, or from 20 to 10, according to reports to the bureau of mines.

The occurrence of coal in Missouri appears to have been known as early as 1806, when, according to "An account of expeditions to the sources of the Mississippi," etc., by Zebulon M. Pike, it was noted on the banks of the Ohio river. The coal attracted the attention of the early settlers and numerous small local mines are reported to have been opened by them. No record is extant of the quantity of coal produced in those early days in Missouri, and the first statement regarding the quantity mined in the state is contained in the report of the United States census for 1840, in which year a production of 9,972 tons is recorded.

## CRIME DUE TO SERVIAN PLOT

### Assassinations Result of Carefully Planned Conspiracy.

### REVENGE FOR AUSTRIAN ACTS.

Annexation of Bosnia and Herzegovina, Defeating Dreams of Greater Country, Inspired the Crime, Accord to News Reaching London.

London, June 30.—According to news reaching here the assassination of Archduke Francis Ferdinand, heir to the Austrian throne, and his wife was the result of a carefully prepared Servian Nationalist plot in revenge for the annexation of Bosnia and Herzegovina, which defeated the dreams and aspirations of creating a greater Servia.

The assassins of the Archduke Francis Ferdinand and his wife have confessed that the plot was matured at Belgrade. The terrible event is only another illustration of how well justified is the anxiety always present in the minds of European politicians and diplomats about the unstable conditions prevailing in the Balkans and even in the dual monarchy itself.

This anxiety is considered likely to increase during the short period before the aged emperor, who alone is believed able to hold together the heterogeneous components of the Austro-Hungarian empire, finally disappears from the scene. He has been displaying his customary strong character in the face of his latest bereavement, and seems in excellent health.

Anti-Servian riots are already occurring in various parts of Austria-Hungary, as well as at Sarajevo.

Special Train Conveys Bodies.  
Vienna, June 30.—The bodies of Archduke Francis Ferdinand and his wife, the duchess of Hohenberg, were conveyed from Sarajevo by special train to Metkovich, Dalmatia. From there they will be transferred to a warship, which will proceed to Trieste, under the escort of a squadron, arriving there Thursday morning. A special train will carry the bodies to Vienna, arriving at 10 o'clock at night. From 10 o'clock until noon they will lie in state in the chapel of the Hofburg and the public will have an opportunity during these hours to pass through the chapel. The interment will be made at midnight Friday at Arstetten. The emperor will not attend the services, but will be represented by Archduke Charles Francis Joseph.

### T. R. ON WAY TO PITTSBURGH

His Address Will Be Closing Feature of Progressive Conference.

Pittsburgh, June 30.—Colonel Roosevelt's visit to Pittsburgh today will mark the second annual conference of the Progressive League of Pennsylvania and his speech tonight is the closing feature of the conference.

Business sessions, conferences and luncheons take up the hours of the day while Colonel Roosevelt is making his trip from New York and at the hour of his arrival, 6:55 p. m., the annual dinner of the league will be in progress.

Four thousand tickets, representing the capacity of Exposition hall, have been issued, and demands for more have prompted the arrangement of an overflow meeting in an adjoining hall, without seats, but providing standing room for about 10,000 persons.

Both meetings will be addressed by Gifford Pinchot, the Progressive nominee for United States senator; William Draper Lewis of Philadelphia, Progressive nominee for governor, and Colonel Roosevelt, although the latter's remarks at the overflow meeting will be very brief.

### Negroes Will Replace Negroes In Office

Washington, June 30.—President Wilson has promised to fill all positions under the federal government now held by negroes with other negroes in case of changes. He told this to Representative Smith of Maryland, who called to urge the appointment of a white man as recorder of deeds for the District of Columbia. President Wilson told Mr. Smith that soon after his inauguration a delegation of negroes urged him to adopt that plan and he promised to do so.

### Factions In Domingo Fully Warned.

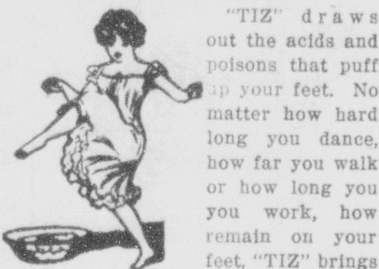

Washington, June 30.—There will be no American intervention in San Domingo as long as lives and property of foreigners are not recklessly endangered by the contending factions. Administration officials indicated they thought the warring forces in the island republic had been sufficiently warned when the American gunboat Machias used its four inch guns to quiet the artillery of President Bordas, which was bombarding the rebel town of Puerto Plata.

### Secretary Takes Place of Bishop.

Buffalo, June 30.—In the absence of Bishop Frank M. Bristol of Omaha, president of the National Epworth league, who is seriously ill and will be unable to attend the ninth annual convention, opening tomorrow in Buffalo, General Secretary Wilbur F. Sheridan of Chicago presided here at the meeting of the executive board, which is considering routine matters preparatory to the meeting.
